

A meaty feast for your pet!

Cats are born carnivores. The new line of pet food has been created to ensure them a diet in accordance with their nature. Selected types of meat used during the production process have been diced into large chunks, so as to resemble real cat food as much as possible. For the same reason the pet food does not contain grain and its moist consistency favours proper hydration of the organism and is loved by cats!

The cat food contains:

- 65% meat and animal derivatives,
- appropriately balanced vitamins and minerals,
- taurine – necessary for proper functioning of an organism.

The pet food is:

- preserved during the sterilization process,
- low-processed,
- resemblant of a home meal – has a simple composition,
- available for adult cats and kittens

The pet food does not contain:

- grain,
- preservatives,
- artificial aromas,
- flavour enhancers.

– Amid beautiful meadows, woods and oxbow lakes, one may find Dolina Noteci Pet Food Production Plant working in harmony with nature and environment, which was named after such a marvelous place. Respecting the uniqueness of the land, Dolina Noteci modernized its production plant to such an extent to develop the environmentally friendly works. We benefit from the local goods which are grown nearby. Therefore we use for the production of our pet food vegetables and fruit, carefully nurtured and harvested by the farmers from Dolina Noteci. Due to cooperation with local farmers, whose fields border with the production plant, we are certain that only ingredients of the highest quality are provided to our pet food. Carefully selected meat products from the approved suppliers and fresh vegetables cause that we manage to develop super premium products, which are recognized and esteemed also on the foreign markets. Having in mind primarily the satisfaction of our pet friends, we constantly improve the recipes and develop new kinds and flavors of our pet food. We are highly pleased that more and more customers choose to buy them. We respect those who cherish and love animals – we do also appreciate their presence in our lives. Therefore Dolina Noteci team is also our dog – the President. He cares together with us to maintain the best quality of our pet food. The President is the first who tastes the newest pet food varieties and certifies palatability with the print of his paw. Because of the fact that animals are close to us and we want to put all the best into their bowls, we are able to provide you with the highest quality product with great taste and – what is important – made in Poland. Many customers have already appreciated Dolina Noteci brand – find out why and try our products.

PREMIUM

A complete pet food for adult cats of all breeds rich in lamb

Lamb is delicate and exceptionally juicy meat. It is well suitable for the diet of cats suffering from food allergies. Lamb meat is a source of L-carnitine, which enhances physical performance – it is therefore an ideal source of protein for active cats. It also provides B-group vitamins responsible for proper functioning of the nervous, immune and cardiovascular systems, as well as iron and zinc. The form of the meal – large bites of moist meat is highly appetizing for cats.

cans 185 g, 400 g

Composition: beef 25% (lungs, liver, hearts), broth, lamb 15% (hearts, meat 5%, liver), chicken 15% (liver, hearts, gizzards, skins), pork 10% (stomach), minerals.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin C – 550 mg, Vitamin E – 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) – 13 mg, Copper (cupric sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

A complete pet food for adult cats of all breeds rich in salmon

Salmon is one of cats' favourite delicacies. This noble fish provides valuable unsaturated fatty acids, which determine the proper functioning of the nervous system and also help to control inflammatory conditions, whose long presence in an organism may lead to serious diseases. The cat food rich in salmon has a consistency similar to home meals – with moist, juicy meat in large chunks.

cans 185 g, 400 g

Composition: chicken 26% (liver, hearts, gizzards, skins), broth, salmon 15% (whole), beef 14% (lungs, liver), pork 10% (stomach), minerals.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin C – 550 mg, Vitamin E – 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) – 13 mg, Copper (cupric sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

A complete pet food for adult cats of all breeds rich in veal

Veal is one of the finest types of meat. As it is easily digestible, with a high protein and low fat content, it is recommended for dietary regimens. The soft and delicate veal meat is a real delicacy for purring pets. The cat food rich in veal provides all the necessary nutrients, including B-group vitamins, ensuring proper functioning of the nervous system. It is pleasantly moist and cats love it.

cans 185 g, 400 g

Composition: veal 28% (lungs, liver, meat 5%, hearts), broth, chicken 27% (liver, hearts, gizzards, skins), pork 10% (stomach), minerals.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin C – 550 mg, Vitamin E – 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) – 13 mg, Copper (cupric sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

A complete pet food for adult cats of all breeds rich in duck

Duck is one of the finest types of poultry. Its meat has a distinctive taste and aroma, making it especially appetizing for cats. Moreover, it is nutritious and contains a lot of protein and valuable nutrients. The cat food rich in duck provides fatty acids necessary for health, iron protecting against anemia, selenium preventing the development of cancers and zinc helping to maintain good skin condition. This delicious meal has a form of large, moist chunks, which are very attractive for cats.

cans 185 g, 400 g

Composition: beef 25% (lungs, liver, hearts), broth, duck 15% (gizzards, meat 5%, liver, skins), chicken 15% (liver, hearts, gizzards), pork 10% (stomach), minerals.

Analytical constituents: crude protein – 10%, crude fat – 6%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin C – 550 mg, Vitamin E – 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) – 13 mg, Copper (cupric sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.

A complete pet food for kittens of all breeds from 3 months of age rich in turkey

Turkey is known for its dietary properties – it is easily digestible and low in calories, while being filling and rich in protein – for these reasons it makes an ideal food for kittens and young cats in the period of intensive growth. The pet food rich in turkey is a source of zinc and B-group vitamins, helping to maintain healthy skin and good fur condition. Salmon oil provides fatty acids necessary for the proper development of kittens' nervous system, while yeast, fructo-oligosaccharides and psyllium seeds support the work of the digestive tract. This is especially important during the critical period of adapting to food other than milk. The cat food rich in turkey has a moist form that kitties go crazy about!

cans 185 g, 400 g

Composition: turkey 27% (liver, gizzards, fillet 5%, hearts), broth, beef 18% (lungs, liver), chicken 10% (gizzards, skins), pork 10% (stomach), minerals, salmon oil 0.5, dried brewer's yeast, fructo-oligosaccharides, psyllium seeds.

Analytical constituents: crude protein – 11%, crude fat – 7%, crude ash – 1.5%, crude fibre – 1%, moisture – 78%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin C – 550 mg, Vitamin E – 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) – 13 mg, Copper (cupric sulphate, pentahydrate) – 2 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Taurine – 800 mg.
