

Cat dishes are exceptionally tasty pet food that your cat will love!

The products are distinguished by:

- a high content of meat and animal derivatives – up to 65%,
- highly-digestible protein at the level of 90-95%,
- added taurine – a necessary amino acid in the cats' diet, guaranteeing proper functioning of the organism,
- a simple recipe,
- a composition adjusted to the nutritional needs of cats.

The pet food does not contain:

- grain,
- preservatives,
- artificial colorants,
- synthetic aromas,
- flavour enhancers.

It is available:

- in 5 flavours,
- in a version for sterilized cats,
- in a version for kittens.

Serve your cat an exceptional meal!

– Amid beautiful meadows, woods and oxbow lakes, one may find Dolina Noteci Pet Food Production Plant working in harmony with nature and environment, which was named after such a marvelous place. Respecting the uniqueness of the land, Dolina Noteci modernized its production plant to such an extent to develop the environmentally friendly works. We benefit from the local goods which are grown nearby. Therefore we use for the production of our pet food vegetables and fruit, carefully nurtured and harvested by the farmers from Dolina Noteci. Due to cooperation with local farmers, whose fields border with the production plant, we are certain that only ingredients of the highest quality are provided to our pet food. Carefully selected meat products from the approved suppliers and fresh vegetables cause that we manage to develop super premium products, which are recognized and esteemed also on the foreign markets. Having in mind primarily the satisfaction of our pet friends, we constantly improve the recipes and develop new kinds and flavors of our pet food. We are highly pleased that more and more customers choose to buy them. We respect those who cherish and love animals – we do also appreciate their presence in our lives. Therefore Dolina Noteci team is also our dog – the President. He cares together with us to maintain the best quality of our pet food. The President is the first who tastes the newest pet food varieties and certifies palatability with the print of his paw. Because of the fact that animals are close to us and we want to put all the best into their bowls, we are able to provide you with the highest quality product with great taste and – what is important – made in Poland. Many customers have already appreciated Dolina Noteci brand – find out why and try our products.

**Dolina[®]
Noteci**
PREMIUM

**DISHES
FOR CATS**

**DOLINA NOTECI PREMIUM
COD AND SARDINE DISH**
for kittens from 3 months of age

pouch 85 g

Composition: cod 26% (whole), broth, beef 20% (lungs, heart, liver), sardines 10% (whole), pork 4% (stomachs), salmon oil 2.6%, powdered whey protein 2%, minerals, dried brewer's yeast, fructo-oligosaccharides, plantago psyllium seeds.

Analytical constituents: crude protein - 13%, crude fat - 6%, crude ash - 1.5%, crude fibre - 1%, moisture - 78%, calcium - 0.3%, phosphorus - 0.25%.

Additives: nutritional additives/kg: Vitamin D₃ - 240 IU, Vitamin C (ascorbic acid) - 550 mg, Vitamin E - 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) - 13 mg, Copper (cupric sulphate, pentahydrate) - 2 mg, Manganese (manganous sulphate, monohydrate) - 0.5 mg, Iodine (calcium iodate, anhydrous) - 0.4 mg, Taurine - 800 mg.

Dolina Noteci Premium dish with cod and sardines is a complete wet food dedicated to kittens from three months of age, covering 100% of their daily requirements for all nutrients, minerals, vitamins, and active substances specific for cats (taurine and fatty acids). The pet food is an easily digestible product, ideally suitable for the nutritional needs of kittens from the very beginning of their independent life. It ensures a proper mineralisation of bones and teeth, and through stimulating the course of all metabolic processes it guarantees appropriate growth and development of the organism.

Dolina Noteci Premium dish with cod and sardines for juniors contains:

- 60% meat and animal derivatives,
- whey protein providing amino acids and lactoglobulin strongly affecting the functioning of the digestive tract and stimulating the activity of certain digestive enzymes - enables growing organisms to increase absorption of easily digestible protein,
- salmon fat - a source of fatty acids: EPA and DHA determining the optimal development of the nervous system of young organisms, helping to restrict inflammatory processes and activating the muscular system,
- yeast containing ingredients of a prebiotic character, beta-glucans stimulating digestive processes occurring in the digestive tract and influencing the defensive functions of a young organism.

**DOLINA NOTECI PREMIUM
TUNA DISH, RABBIT DISH**

A complete wet cat food, covering 100% of their daily requirements of all nutrients, minerals, vitamins, and active substances specific for cats (taurine and fatty acids). They provide a balanced meal, developed on the basis of the latest nutritional recommendations for adult cats. Thanks to the modern production method and precise selection of ingredients, this pet food is characterised by high digestibility of all nutrients.

Dolina Noteci Premium tuna dish and rabbit dish contain:

- 65% meat and animal derivatives or fish and fish products,
- tuna fish - a source of protein, n-3 fatty acids and necessary in a cat's diet arachidonic acid, influencing the appearance of fur,
- rabbit meat - a source of protein and n-6 fatty acids, which play an important role in the proper functioning of skin and influence the condition of fur,
- calcium and phosphorus in the appropriate ratio, guaranteeing proper co-functioning of the bone and muscular systems.

pouch 85 g

Analytical constituents: crude protein - 11%, crude fat - 3.5%, crude ash - 1.5%, crude fibre - 2%, moisture - 81%, calcium - 0.2%, phosphorus - 0.18%.

Additives: nutritional additives/kg: Vitamin D₃ - 240 IU, Vitamin C (ascorbic acid) - 1050 mg, Vitamin E - 95 mg, Zinc (zinc chelate of glycine hydrate, zinc oxide) - 13 mg, Copper (cupric sulphate, pentahydrate) - 2 mg, Manganese (manganous sulphate, monohydrate) - 0.5 mg, Iodine (calcium iodate, anhydrous) - 0.4 mg, Taurine - 800 mg, L-carnitine - 800 mg.

Urine acidifier/kg: ammonium chloride - 0.2 g, DL-methionine - 4000 mg.

A complete wet cat food intended for sterilized adult cats of all breeds, covering 100% of their daily requirements for all nutrients, minerals, vitamins and active substances specific for cats (taurine and fatty acids). The cat food provides a balanced meal adjusted to the changes which have occurred in their organisms as a result of sterilization - greater risk of overweightness and obesity as well as related illnesses. The recommended amount of the pet food and ensuring the animal physical activity guarantee that its body weight will be maintained at a stable level.

Dolina Noteci Premium dish with beef and dish with duck for sterilised cats contains:

- 55% meat and animal derivatives,
- L-carnitine allowing greater use of caloric ingredients and increasing the rate of metabolism,
- ammonium chloride and DL-methionine - a urine acidifier preventing the formation of urinary crystals and stones,
- fructo-oligosaccharides with prebiotic properties stimulating digestive processes,
- psyllium seeds - regulating the work of the digestive tract.
