Do you know that one of the most beautiful valleys in Poland – Dolina Noteci in Wielkopolska Province – has been awarded in the competition “Seven new wonders of Poland” in category “Nature”? Amidst beauteous meadows, forests and oxbow lakes, one may find “Dolina Noteci” Pet Food Production Plant, which was named after such marvelous place. Respecting the uniqueness of the land, “Dolina Noteci” makes sure that the plant is environmentally friendly. We benefit from the local goods, which are grown nearby - we use for the production of our pet food Polish vegetables and fruits carefully nurtured and harvested by the farmers from Dolina Noteci. Due to cooperation with them, we are certain that only ingredients of the highest quality are provided to our pet food. Carefully selected, high-quality meat products with additions of fresh Polish vegetables allow us to create the best quality product, which is esteemed also on foreign markets. Taking care of our customers' satisfaction, we constantly improve the recipes of our pet food and develop new flavors of the products. We are highly pleased that more and more customers choose to buy them.

## PERFECT CARE

PROPER NUTRITION

PROPHYLACTICS

FUNCTIONALITY

Each owner, looking after a dog, along with ensuring it decent living conditions, needs to adjust the method of feeding in such a way as to cover its requirements for all nutrients as much as possible, taking under consideration the pet's individual needs. Among many factors affecting the quantity and quality of nutrients that the dog must consume, those that result from the necessity of improving the function of particular organs or their prophylactics are also significant. Therefore the functionality of the Dolina Noteci Premium Perfect Care pet food series takes into account prophylactic effects regarding particular organ dysfunctions most often encountered among dogs. The precise selection of raw materials and use of high quality, biologically active ingredients guarantees individual feeding methods for each of selected conditions requiring nutritional intervention. An important advantage helping to attain the nutritional effect is the fact that Dolina Noteci Premium Perfect Care for adult dogs of all breeds is characterised by its highly appealing taste and the optimal digestibility factors of all nutrients.
